No game has done this before.

“We are pleased to have been chosen by Electronic Arts to develop the iPad version of Madden and especially pleased that the game has met with such incredible retail success and critical acclaim right out of the gate.” states Wolfgang Hamann, President/CEO of Koolhaus Games Inc.

“Working with everyone at Electronic Arts on the project was a great experience and it showed in how the game turned out.”

Here are just some of the reviews on Madden NFL 11:

IGN: 8.0 - Impressive

“This is one gorgeous game of football. But Madden NFL 11 isn't all looks. Thanks to some smart, intuitive controls, it's also a fun play. “

CNET Reviews: “Madden 11 on the iPad: A perfect armchair QB”

Koolhaus Games is one of the first developers to develop games on iPad and is currently working on a second unannounced iPad and iPhone 4 title for Electronic Arts.
